# The Dark Side of the Coronavirus Scam – LewRockwell LewRockwell.com

📅 April 22, 2020 👤 Michael Crowe 🗣️ Newsnow

This report reveals a collection of information that certainly throws a different light on the public's understanding of this global COVID-19 coronavirus fiasco. For this report I will be referring to linked sources so readers can fact check as usual, and a primary source for this report I admirably refer to as [The Oracle Helena](#).

As ancient history buffs may recall, Pythia was the female priestess at the Temple of Apollo at Delphi in ancient Greece (~1400 B.C.). The seat of the Oracle was dug into a pit where Pythia sat. She breathed terrestrial gases rising from the ground which altered her speech much like laughing gas does. People from all over Greece and points beyond trekked to Delphi to have their questions answered by the Priestess Pythia.

In a similar fashion, I consult with Helena Glass as she unravels the complexities of this “crime of the century.” She operates an obscure website that is difficult to locate due to some obvious censoring. Don’t be concerned I am delving into the spirit world, there are real-world links provided to Helena Glass’ scholarship. I’m just having fun elevating Helena Glass to the trusted status as an oracle, defined as “a [person with great wisdom and wisdom](#),” and moral high ground I might add.

### When it begins

It takes a real dedicated sleuth to follow the evil hijinks going on at the World Health Organization (WHO). Helena informs the WHO and [GAVI the Vaccine Alliance](#), founded by Bill and Melinda Gates, [collectively sit on assets amounting to \\$12 billion at the end of 2018](#) and have nothing to show for pandemic response, disease mitigation or poverty reduction.

I don’t want to steal all the thunder from Helena’s exceptional investigation and insights into how the modern world ended up paralyzed due to a coronavirus mutation. So, I will synopsise. Be sure to frequent Helena Glass’ [website](#) for updates because I am reporting about a steadfast investigator who tells it like it really is.

As an example, Helena calls attention to WHO’s original charter, which was to eradicate malaria. Since 1964 malaria cases have increased. In Nigeria there are [roughly 100 million cases and 300,000 deaths annually, negating the entire purpose of the WHO](#). It’s not just numbers like these that make Helena Glass’ site so unique, it is the intrigue, the depth of evil that she captures. It made me swallow hard just to fathom what she is saying.

Helena says in her [April 4 communique](#) that in 2015 philanthropist and vaccine advocate Bill Gates teamed up with actor Ben Affleck to request more funds and approval to perform experiments in the Congo and other developing nations. Nothing like celebrity endorsement. This is Gates’ modus operandi.

### 25 years ago

Helena Glass starts by noting other world leaders have kicked the WHO out. US news media gives an undeserved status to the WHO.

In 2017 Vladimir Putin accused Bill Gates of starting the Ebola epidemic in Africa. Later that year India’s Prime Minister, Narendra Modi, also expelled the Gates

Helena refers to a 1995 malevolent meeting of 500 of the world's most important diplomats, scientists and industrial leaders sponsored by the Mikhail Gorbachev Foundation that determined the world could still thrive with an 80% reduction in global population and that Christianity must die in favor of pantheism, with socialism being preferable over capitalism.

## Colonization of the USA?

Helena notes in a [April 6, 2020 posting](#) that in 2001 Chinese Defense Minister Gen. Chi Haotian spoke to the Chinese Communist Party and provided a blueprint how China would take over North America because China had destroyed and polluted its land and predicted food shortages would demand geographical expansion. Gen. Chi, recognizing military efforts would be futile against the west and recommended biowarfare. Gen. Chi planned for China to colonize North America and those who weren't killed would be dealt with accordingly.

Here is an excerpt from [Gen. Haotian's speech](#) (1992):

“

From a humanitarian perspective, we should issue a warning to the American people and persuade them to leave America and leave the land they have lived in to the Chinese people. Or at least they should leave half of the United States to be China's colony, because America was first discovered by the Chinese. But would this work? If this strategy does not work, then there is only one choice left to us. That is, use decisive means to “clean up” America and reserve America for our use in a moment. Our historical experience has proven that as long as we make it happen, nobody in the world can do anything about us. Furthermore, if the United States as the leader is gone, then other enemies have to surrender to us.

“

Biological weapons are unprecedented in their ruthlessness, but if the Americans do not die then the Chinese have to die. If the Chinese people are strapped to the present land, a total societal collapse is bound to take place. (The Secret Speech of General Chi Haotian)

## No other out: biowarfare

Helena reports that long thereafter China opened is Wuhan Level 4 biowarfare laboratory in 2014. Then China dispatched talented Chinese to infiltrate American universities to work in university-based laboratories, and China would donate funds to these learning institutions. The National Institutes of Health even issued grant money to these scientists and, of all things, they took their intellectual property back to China.

One scientist Helena mentions is [She Zhengli](#) who specialized in the SARS coronavirus when stationed at University of North Carolina (Chapel Hill), under the tutelage of [Ralph Baric](#) PhD who collaborated with the Wuhan Institute of Virology. (More about Baric below) These technicians launched a “search” for

"Disease X Virus," which really amounted to creating Disease X. ([Disease X was first talked about in 2018](#))

**More: Having vivid, weird, or unsettling dreams lately? You're not the only one.**

Another scientist [Dr. Xiangguo Qui](#), stationed at the University of Winnipeg Level 4 lab in Manitoba, Canada, was discovered to have stolen samples of SARS virus and taken them back to Wuhan on 5 separate occasions. Meanwhile, Zhengli continued her work at UNC, inserting different proteins and pathogens including HIV to create a hybrid virus that "can't be vaccinated against."

**"...inserting different proteins and pathogens including HIV to create a hybrid virus that "can't be vaccinated against."**

All this was followed by the World Health Organization issuing a warning that a global epidemic that would kill a large portion of the global population, was imminent, writes Helena. Collaborators were Bill Gates and George Soros. Gates eventually invested \$40 billion in China. Only President Trump's trade war with China interrupted progress. Then the US fostered covert support for protests in Hong Kong. Helena speculates this prompted China to accelerate a surprise attack ahead of schedule. China saw this as a necessity or, as Helena states, "there would be societal collapse which would necessitate the annihilation of 800 million Chinese.

So, it is a "do or die" mission. Them or us.

Helena then believes China went rogue with the Deep State, possibly deceiving them.

As evidence of the covert plans of China, Helena cites the discovery of test kits in Spain that were infected with the virus, which were returned to China. "Coincidence?" asks Helena.

Then on April 15 Helena notes that National Institute of Allergy & Infectious Disease chief Anthony Fauci may have worked in collaboration with the Gates Foundation to authorize billion of grants given to the Chinese scientists who infiltrated US universities and stole biowarfare agents when were diverted to Wuhan's Level 4 Laboratory. Gates also funds the NIH (the National Institutes of Health).

Recall Gates' TED Talk that stipulated a necessary reduction in global population upwards of 15%, or 1.2 billion people -- (via vaccinations?). Helena then suggests Gates vaccination for COVID-19 would "contain some agent that would sterilize those who submit -- either willingly or forcefully."

### Celebrity involvement; but not the celebrity Gates had in mind

The void in the labor pool would be made up by use of AI robotics. Then Helena says Gates would recruit a Hollywood Jester with an 8<sup>th</sup>-grade education to sell his “super world.”

But then “along comes someone who was just an entertainment (Trump), a National Enquirer sort of figure” says Helena, and the entire plan is upended. It appears every attempt to topple this fellow is met with defeat. “Each and every time Trump is ahead of them,” says Helena.

“The (American) people don’t even exist any longer. Shattered and sheltered in their homes, deprived of contact and social needs, the Classes fight among themselves and essentially put us in a self-imposed prison,” laments Helena.

Trump was asked by a feminist reporter what he knew of all this. Helena says Trump responded: *“I wouldn’t tell you if you were the last person.”*

**Helena says Trump responded:**

*“I wouldn’t tell you if you were the last person.”*

Helena says Trump then moved into check-mate mode. He appears to be letting the evil-doers light a fuse, then lure them into placing the dynamite stick in their own camp.

### Moneygrubbing with people’s lives in the balance.

[On April 17 Helena](#) really sharpens her pencil into a sword. She writes of pandemic bonds issued from the World Bank in collaboration with Bill Gates and George Soros, along with government and other private investors to assist agencies in managing a crisis like a pandemic.

The bonds were due to mature on July 15, 2020, paying 6.5 to 11.0% interest above the Libor rate, and were intended to apply only to the probability of a pandemic from coronavirus (that was as of 2017). What they didn’t plan on is Class A bonds today are trading at a 25% discount (loss) and Class B Bonds at 95% discount, “meaning investors lost money and this may explain why WHO was reluctant to call a pandemic knowing the money that Gates and other would lose,” says our soothsayer Helena. Now Mr. Trump is taking the WHO to task over its late call.

**“...meaning investors lost money and this may explain why WHO was reluctant to call a pandemic...”**

Helena reports the WHO knew of the potential for a pandemic as early as October or November 2019. Given that the pandemic wasn’t called by WHO till March 11, meaning actual assistance wouldn’t be released till June 3<sup>rd</sup>, at which point the Bonds may be deemed Junk.

Then Helena recounts the investment that Mr. Gates made in Gilead Science for their flu medication Xlfluzza that, by the way, produces similar symptoms as the COVID-19 coronavirus.

But President Trump announced that chloroquine, a drug used to treat malaria, could be re-purposed to treat COVID-19, and the rest is history. Gilead was left holding the bag on its newly approved Remdesivir which was deemed to be the only means of eradicating the virus (notice Remdesivir was approved right on time for the epidemic). Mr. Gates is financially linked to Gilead.

Helena seems to relish in the fact Gates lost the value of his bond investment, and Remdesivir was replaced with an already FDA-approved drug that has a good safety record, and it's possible no vaccine will ever be approved for COVID-19.

### **What, no vaccine is possible?**

That revelation comes from [Professor Ian Frazer of Queensland University reveals](#) who says many teams of researchers have been working on a coronavirus vaccine for some time. Professor Frazer notes there is no vaccine against the common cold, and coronaviruses are cold viruses. He says the virus enters the lungs while a vaccine enters the blood circulation to activate antibodies and white blood cells. Any proposed vaccine would not be in direct contact with the lung. Dr. Frazer goes on to say: "At the moment we don't know how to make a coronavirus vaccine work."

**More: VIDEO: British Boxer Blasted for Video Teaching Men How to Hit Women During Virus Lockdown**

Maybe Mr. Trump knows this and is letting Fauci & Co. go out on a limb.

### **Gates decimated**

All of Gates' plans to become a pandemic billionaire "have just been completely decimated! says Helena, who completely loses her objectivity at this point.

The Gates "propagation machine" (Foundation), founded in 2006 with a net worth of \$1.6 billion, is funded by an airline ticket tax that just went south as airports have been closed in the wake of the epidemic.

"Gates has to be absolutely fuming!" writes Helena, losing her composure once again. She lauds Trump for flushing every source of profit and income "off of this created pandemic."

Helena closes her report by saying: "All this being said, try and imagine where we might be if even one of these Gates agendas had succeeded? And imagine how freaking filled with hate they are for being thumped each and every time!!" You would have no idea she is for MAGA, would you?

### **Some of my own sleuthing**

What is historically important is that [Ralph Baric](#), PhD, professor at the Department of Microbiology & Immunology at the Univ. of North Carolina (Chapel Hill), is [reported to have sent a strain of coronavirus to researchers at the Wuhan laboratory in 2015](#) for “gain of function” studies, as reported in [Nature Medicine](#), Vol. 21, No. 12, pages 1508-13, 2015, given that such studies were banned in the US at the time. [Gain of function studies resumed in 2017.](#)

So, yes, a coronavirus was enhanced into a possible bio-weapon in a lab in China, but yes, it also initially was supplied and originated from the US. This fact was also reported at The Deplorable Coders Club in an article entitled [“Wuhan Lab Did The Genetic Engineering For Baric.”](#)

But we read elsewhere that [“Coronavirus was not genetically engineered in a Wuhan Lab.”](#) A strong denial of any weaponizing of a coronavirus was recently issued the journal [Emerging Microbes & Infections](#), noting different strains of coronavirus were involved. But the question remains, why were gain of function studies being conducted at all? Other researchers called it [“risky research.”](#)

Oddly, an article in the [New Observer](#) displays a map of where Covid-19 cases have been reported in North Carolina and they appear to be centered near Chapel Hill, if that is any kind of association (like the Wuhan seafood market association with the viral outbreak in China). Whether The New Observer editors were attempting to allude to such an association is unknown.

### **COVID-19 is highly transmissible**

The rapid transmission of COVID-19 coronavirus compared to flu viruses is [explained by its activation by an enzyme in humans called furin](#) with its “spike protein,” whereas flu viruses attach to a protein called hemagglutinin. [The furin enzyme is abundant in the lungs, liver and small intestines](#), so it has the potential to attack multiple organs.

A [COVID-19-infected individual is expected to infect 2.0-7.0 others](#), compared to 1.83 for Ebola virus and 1.54 for influenza viruses and 2.9 for the SARS coronavirus. That is precisely what is observed — COVID-19 is highly infectious.

### **The ultimate bioweapon: it leaves no clues and places blame on other pathogens**

In the animal lab, when animals were given an inactivated coronavirus vaccine, which effectively produced immunity against the MERS-coronavirus ([Middle East Respiratory Syndrome](#)), it also [left the animals vulnerable to lung damage \(eosinophil attack\) when exposed to a live virus](#). [Low levels of eosinophils](#) have been found among patients battling COVID-19 coronavirus.

In another instance, an [increase in “pathogenicity” of an otherwise low-pathogenic bird flu \(H9N2\)](#) was observed following vaccination with a live attenuated vaccine for infectious bronchitis.

Then we have a report in [Volume 38 of the journal Vaccine](#) that indicates the flu vaccine of 2017-18 produced a 1.36 increased relative risk for coronavirus among Department of Defense personnel.

The study involved a “hypothesis that vaccine-associated virus interference may lead to increased risk for other respiratory viruses in vaccinated individuals, because the flu vaccine prevents or minimizes temporary non-specific immunity conferred by natural infection.”

Virus interference “occurs when a virus impacts the growth of other viruses,” as explained at [HealthFeedback.org](#) While denials of any association between the flu vaccine and coronavirus have been issued, these days you have to look under every rock. An indirect acting bioweapon would certainly be an ideal stealth weapon.

This may be COVID-19s way to setting up infected individuals for a subsequent and more deadly viral infection. One wonders if the worst is yet to come for an unwary US population. Is America under attack?

The COVID-19 outbreak appears to be some sort of drill that got out of hand. [Event 201](#) was a group of health experts that gathered in New York City in October of 2019 to simulate a pandemic infectious disease outbreak. Just coincidence, right? Was it pre-planned? [Gates himself predicted it](#) in November of 2019.

[In 2018 virologist Anthony Fauci](#) then warned threatened in that Disease X was soon to come during Donald Trump's Presidency. [Others also predicted such a viral outbreak](#). So why was preparation so inadequate?

Somehow a virus knew precisely when to mutate and infect a planet of 7.8 billion people who had no immunity towards it.

It is reported that billionaire Bill Gates conducted a recent media tour with Anthony Fauci of the National Institutes of Health, threatening the public and businesses with a 6-month to 1-year lockdown unless governments purchase their vaccines, vaccines that are now under development. Gates did say: [“Things won't get back to normal until we have gotten a vaccine out to the entire world.”](#) Gates is reported to have investments in [7 different developmental COVID-19 vaccine ventures](#).

Come to your own conclusions. This isn't manslaughter; it could be murder given Gates' prior comments about culling human populations. No sense letting a good pandemic go to waste.

Much thanks to [Helena Glass](#) for leading us out of the woods.
